WST-P22 PRECIPITANT

WST-P22 was formulated for use as a precipitating agent for certain metals found in waste water systems.

PRODUCT SPECIFICATIONS

Active Ingredients, (% purity by acid decomp.)	25.0-27.0
pH @ 25°C	12.0-13.3
Total Alkalinity, % as NaOH	<0.8
Specific Gravity @ 20°C	1.09
Density	9.10 lbs/gallon
Appearance	Yellow-green liquid

WST-P22 should be stored at moderate temperature, at 33°F or above, to avoid crystallization.

WST-P22 is a U.N. #3267 corrosive liquid when the pH is 12.8 or greater.

The composition of WST-P22 is registered on the TSCA Inventory.

CAS No. 148-18-5

06/28/01
